SELECTED OCCUPATIONAL HISTORY

Clinical Director, Cottonwood Heights Spine & Injury Center, Cottonwood Heights, Utah, 2008-Present

Chiropractor, Page Chiropractic & Wellness Center, Cottonwood Heights, Utah, 2008 - Present

Chiropractor, Utah Spine Center, Taylorsville, Utah, 2011-Present

Chiropractor, Focus Health & Fitness, Salt Lake City, Utah, 2007 - 2008

Chiropractor, Utah Spine Center of Northern Utah, Riverdale, Utah, 2006 - 2008

EDUCATION AND LICENSURE

Doctor of Chiropractic, Licensed in the State of Utah, License #4780887-1202, 2000- Present

Bachelor of Science in Health Promotion, Brigham Young University, Provo, Utah, 1993

Internship, Frogley Chiropractic (Integrated Wellness), South Jordan, Utah, 2000

Doctorate of Chiropractic, Palmer College of Chiropractic West, San Jose, California, 2000

National Board of Chiropractic Examiners, Part I, 1998

National Board of Chiropractic Examiners, Part II, 1999

National Board of Chiropractic Examiners, Part III, 1999

National Board of Chiropractic Examiners, Part IV, 2000

National Board of Chiropractic Examiners, Physiotherapy, 1999

Internship, Palmer College of Chiropractic West Student Clinic, San Jose, California, 1999

SELECTED POST-GRADUATE EDUCATION, CERTIFICATIONS AND DIPLOMATES

Certification in MRI Interpretation, ACCME Joint Sponsorship with the State University of New York at Buffalo, School of Medicine and Biomedical Sciences, Academy of Chiropractic Post Doctoral Division, Recognized by the PACE Program of the Federation of Chiropractic Licensing Boards, Buffalo, NY, 2013

Certification in Spinal Biomechanical Engineering, ACCME Joint Sponsorship with the State University of New York at Buffalo, School of Medicine and Biomedical Sciences, Academy of Chiropractic Post Doctoral Division, Recognized by the PACE Program of the Federation of Chiropractic Licensing Boards, Buffalo, NY, 2014

Spinal Biomechanical Engineering: Cartesian System, *The Cartesian Coordinate System from the history to the application in the human body. Explanation of the x, y and z axes in both translation and rotations (thetas) and how they are applicable to human biomechanics.* ACCME Joint Sponsorship with the State University of New York at Buffalo, School of Medicine and Biomedical Sciences, Academy of Chiropractic Post Doctoral Division, Recognized by the PACE Program of the Federation of Chiropractic Licensing Boards, Buffalo, NY, 2014

Spinal Biomechanical Engineering: Cervical Pathobiomechanics, *Spinal biomechanical engineering of the cervical and upper thoracic spine. This includes the normal and pathobiomechanical movement of both the anterior and posterior motor units and normal function and relationship of the intrinsic musculature to those motor units. Nomenclature in reporting normal and pathobiomechanical findings of the spine.* ACCME Joint Sponsorship with the State University of New York at Buffalo, School of Medicine and Biomedical Sciences, Academy of Chiropractic Post Doctoral Division, Recognized by the PACE Program of the Federation of Chiropractic Licensing Boards, Buffalo, NY, 2014

Spinal Biomechanical Engineering: Lumbar Pathobiomechanics, *Spinal biomechanical engineering of the lumbar spine. This includes the normal and pathobiomechanical movement of both the anterior and posterior motor units and normal function and relationship of the intrinsic musculature to those motor units. Nomenclature in reporting normal and pathobiomechanical findings of the spine.* ACCME Joint Sponsorship with the State University of New York at Buffalo, School of Medicine and Biomedical Sciences, Academy of Chiropractic Post Doctoral Division, Recognized by the PACE Program of the Federation of Chiropractic Licensing Boards, Buffalo, NY, 2014

Spinal Biomechanics in Trauma, *To utilize whiplash associated disorders in various vectors of impact and whiplash mechanisms in determining pathobiomechanics. To clinically correlate annular tears, disc herniations, fractures, ligament pathology and spinal segmental instability as sequelae to pathobiomechanics from trauma. The utilization of digital motion x-ray in*

diagnosing normal versus abnormal facet motion along with case studies to understand the clinical application. ACCME Joint Sponsorship with the State University of New York at Buffalo, School of Medicine and Biomedical Sciences, Academy of Chiropractic Post Doctoral Division, Recognized by the PACE Program of the Federation of Chiropractic Licensing Boards, Buffalo, NY, 2014

Spinal Biomechanical Engineering & Organizational Analysis, *Integrating spinal biomechanics and pathobiomechanics through digitized analysis. The comparison of organized versus disorganized compensation with regional and global compensation. Correlation of the vestibular, ocular and proprioceptive neurological integration in the righting reflex as evidenced in imaging. Digital and numerical algorithm in analyzing a spine.* ACCME Joint Sponsorship with the State University of New York at Buffalo, School of Medicine and Biomedical Sciences, Academy of Chiropractic Post Doctoral Division, Recognized by the PACE Program of the Federation of Chiropractic Licensing Boards, Buffalo, NY, 2014

Spinal Biomechanical Engineering: Cervical Digital Analysis, *Digitizing and analyzing the cervical spine in neutral, flexion and extension views to diagnose pathobiomechanics. This includes alteration of motion segment integrity (AMOSI) in both angular and translational movement. Ligament instability/failure/pathology are identified all using numerical values and models. Review of case studies to analyze pathobiomechanics using a computerized/numerical algorithm.* ACCME Joint Sponsorship with the State University of New York at Buffalo, School of Medicine and Biomedical Sciences, Academy of Chiropractic Post Doctoral Division, Recognized by the PACE Program of the Federation of Chiropractic Licensing Boards, Buffalo, NY, 2014

Spinal Biomechanical Engineering: Lumbar Digital Analysis, *Digitizing and analyzing the lumbar spine images to diagnose pathobiomechanics. This includes anterior and posterior vertebral body elements in rotational analysis with neutral, left and right lateral bending in conjunction with gate analysis. Ligament instability/failure/pathology is identified all using numerical values and models. Review of case studies for analysis of pathobiomechanics using a computerized/numerical algorithm along with corrective guidelines.* ACCME Joint Sponsorship with the State University of New York at Buffalo, School of Medicine and Biomedical Sciences, Academy of Chiropractic Post Doctoral Division, Recognized by the PACE Program of the Federation of Chiropractic Licensing Boards, Buffalo, NY, 2014

Spinal Biomechanical Engineering: Full Spine Digital Analysis, *Digitizing and analyzing the full spine images to diagnose pathobiomechanics as sequellae to trauma in relation to ligamentous failure and disc and vertebral pathology as sequellae. This includes anterior and posterior vertebral body elements in rotational analysis with neutral, left and right lateral bending in conjunction with gate analysis. Ligament instability/failure/pathology is identified all using numerical values and models. Review of case studies for analysis of pathobiomechanics*

using a computerized/numerical algorithm along with corrective guidelines. ACCME Joint Sponsorship with the State University of New York at Buffalo, School of Medicine and Biomedical Sciences, Academy of Chiropractic Post Doctoral Division, Recognized by the PACE Program of the Federation of Chiropractic Licensing Boards, Buffalo, NY, 2014

Advanced Principles of Upper Extremity Adjusting, Shoulder, elbow, wrist and hand pathologies. Review of diagnosis and treatment protocols for entrapment syndromes, injury, and abnormal anatomy, Parker College of Chiropractic, Boise, Idaho, 2013

Spinal Biomechanical Engineering Principles and Application, Integrating spinal biomechanics and pathobiomechanics through digitized analysis. The comparison of organized versus disorganized compensation with regional and global compensation. Advanced analysis and integration of pathobiomechanics as sequella to trauma in clinical practice and documentation. PACE Recognized by the Federation of Chiropractic Licensure Boards, Las Vegas NV 2013

Evidenced Based Practice, Integrating indexed peer reviewed research as evidence into clinical practice related to trauma and the creation of a diagnosis, prognosis and treatment plan, PACE Recognized by the Federation of Chiropractic Licensure Boards, Las Vegas NV 2013

Integrating Clinical Findings in Admissible Documentation, Combining clinical, radiographic, electrodiagnostic and MRI findings to conclude a diagnosis and reporting accurately through admissible documentation. Diagnosis includes head, spine and disc pathology as sequella to trauma, PACE Recognized by the Federation of Chiropractic Licensure Boards, Las Vegas NV 2013

MRI Protocols Clinical Necessity, MRI slices, views, T1, T2, STIR axial, stacking, FFE, FSE and sagittal images. Clinical indication for the utilization of MRI and pathologies of disc in both trauma and non-trauma sequelae, including bulge, herniation, protrusion, extrusion and sequestration. ACCME Joint Sponsorship with the State University of New York at Buffalo, School of Medicine and Biomedical Sciences, Academy of Chiropractic Post Doctoral Division, Recognized by the PACE Program of the Federation of Chiropractic Licensing Boards, Long Island, NY, 2013

MRI Interpretation of Cervical Herniations, MRI slices, views, T1, T2, STIR Axial, FFE, FSE and sagittal images in the interpretation of lumbar herniations. With the co-morbidities and complications of stenosis, pseudo-protrusions, cantilevered vertebrate, Schmorl's nodes and herniations. morphology of lumbar disc pathologies of central and lateral herniations, protrusions, extrusions, sequestration, focal and broad based herniations are defined and illustrated. Spinal cord and canal compromise interpretation with management. ACCME Joint Sponsorship with the State University of New York at Buffalo, School of Medicine and Biomedical Sciences, Academy of Chiropractic Post Doctoral Division, Recognized by the PACE Program of the Federation of Chiropractic Licensing Boards, Long Island, NY, 2013

MRI Interpretation of Lumbar Herniations, MRI slices, views, T1, T2, STIR axial, stacking, FFE,

FSE and sagittal images in the interpretation of lumbar herniations. With the co-morbidities and complications of stenosis, pseudo-protrusions, cantilevered vertebrate, Schmorl's nodes and herniations. Morphology of lumbar disc pathologies of central and lateral herniations, protrusions, extrusions, sequestration, focal and broad based herniations are defined and illustrated. Central canal and cauda equina compromise interpretation with management. ACCME Joint Sponsorship with the State University of New York at Buffalo, School of Medicine and Biomedical Sciences, Academy of Chiropractic Post Doctoral Division, Recognized by the PACE Program of the Federation of Chiropractic Licensing Boards, Long Island, NY, 2013

MRI Interpretation of Cervical Degeneration/Bulges, MRI slices, views, T1, T2, STIR axial, stacking, FFE, FSE and sagittal images in the interpretation of lumbar degeneration. With the co-morbidities and complications of stenosis, pseudo-protrusions, cantilevered vertebrate, Schmorl's nodes and herniations. Spinal cord and canal compromise interpretation with management. ACCME Joint Sponsorship with the State University of New York at Buffalo, School of Medicine and Biomedical Sciences, Academy of Chiropractic Post Doctoral Division, Recognized by the PACE Program of the Federation of Chiropractic Licensing Boards, Long Island, NY, 2013

MRI Interpretation of Cervical Herniations, MRI slices, views, T1, T2, STIR Axial, FFE, FSE and sagittal images in the interpretation of lumbar herniations. With the comorbidities and complications of stenosis, pseudo-protrusions, cantilevered vertebrate, Schmorl's nodes and herniations. morphology of lumbar disc pathologies of central and lateral herniations, protrusions, extrusions, sequestration, focal and broad based herniations are defined and illustrated. Spinal cord and canal compromise interpretation with management. ACCME Joint Sponsorship with the State University of New York at Buffalo, School of Medicine and Biomedical Sciences, Academy of Chiropractic Post Doctoral Division, Recognized by the PACE Program of the Federation of Chiropractic Licensing Boards, Long Island, NY, 2013

MRI Interpretation of Degenerative Spine and Disc Disease with Overlapping Traumatic Insult to Both Spine and Disc, MRI slices, views, T1, T2, STIR Axial, FFE, FSE and sagittal images in the interpretation of degenerative spondylolisthesis, spinal canal stenosis, Modic type 3 changes, central herniations, extrusions, compressions, nerve root compressions, advanced spurring and thecal sac involvement from an orthopedic, emergency room, chiropractic, neurological, neurosurgical, physical medicine perspective. ACCME Joint Sponsorship with the State University of New York at Buffalo, School of Medicine and Biomedical Sciences, Academy of Chiropractic Post Doctoral Division, Recognized by the PACE Program of the Federation of Chiropractic Licensing Boards, Long Island, NY, 2013

Impairment Rating Certification, The understanding and utilization of the protocols and parameters of the AMA Guide to the Evaluation of Permanent Impairment 6th Edition. Spine, neurological sequela, migraine, sexual dysfunction, sleep and arousal disorders, station and gait disorders and consciousness are detailed for impairment rating. Herniated discs, radiculopathy, fracture, dislocation and functional loss are also detailed in relation to impairment ratings. Academy of Chiropractic Post Doctoral Division, Long Island, NY, 2012 PACE Chiropractic CE Provider.

Functional Restoration of the Shoulder. *Essential anatomy, physiology and biomechanics of the shoulder. Comprehensive joint function in relation to the cervical spine and lumbar spine to enhance biomechanics.* Salt Lake City, Utah, 2012

Utah Chiropractic Physicians Association Fall Convention, 2011. *Advanced training in Business Law, Mock Personal Injury Trial with a Jury, Deposition Training.* Salt Lake City, Utah, 2011

Injuries From Low Impact Collisions/Records Documentation, *Epidemiology, etiology, and treatment protocols for low impact collisions.* Texas Chiropractic College, Pasadena, Texas, 2010

Neurodiagnostics, Imaging Protocols and Pathology of the Trauma Patient, *An in-depth understanding of the protocols in triaging and reporting the clinical findings of the trauma patient. Maintaining ethical relationships with the medical-legal community.* CMCS Post Doctoral Division, New York Chiropractic Council, New York State Department of Education Board for Chiropractic, Long Island, New York, 2010

Diagnostics, Risk Factors, Clinical Presentation and Triaging the Trauma Patient, *An extensive understanding of the injured with clinically coordinating the history, physical findings and when to integrate neurodiagnostics. An understanding on how to utilize emergency room records in creating an accurate diagnosis and the significance of "risk factors" in spinal injury.* CMCS Post Doctoral Division, New York Chiropractic Council, New York State Education Department Board for Chiropractic, Long Island, New York, 2010

Crash Dynamics and Its Relationship to Causality, *An extensive understanding of the physics involved in the transference of energy from the bullet car to the target car. This includes G's of force, newtons, gravity, energy, skid marks, crumple zones, spring factors, event data recorder and the graphing of the movement of the vehicle before, during and after the crash. Determining the clinical correlation of forces and bodily injury.* CMCS Post Doctoral Division, New York Chiropractic Council, New York State Education Department Board for Chiropractic, Long Island, New York, 2010

MRI, Bone Scan and X-Ray Protocols, Physiology and Indications for the Trauma Patient, *MRI interpretation, physiology, history and clinical indications, bone scan interpretation, physiology and clinical indications, x-ray clinical indications for the trauma patient.* CMCS Post Doctoral Division, New York Chiropractic Council, New York State Education Department Board for Chiropractic, Long Island, New York, 2010

Neurodiagnostic Testing Protocols, Physiology and Indications for the Trauma Patient, *Electromyography (EMG), Nerve Conduction Velocity (NCV), Somato Sensory Evoked Potential (SSEP), Visual Evoked Potential (VEP), Brain Stem Auditory Evoked Potential (BAER) and Visual-Electronystagmosgraphy (V-ENG) interpretation, protocols and clinical indications for the trauma patient.* CMCS Post Doctoral Division, New York Chiropractic Council, New York State Education Department, Board for Chiropractic, Long Island, New York, 2010

Documentation and Reporting for the Trauma Victim, *Understanding the necessity for accurate*

documentation and diagnosis utilizing the ICD-9 and the CPT to accurately describe the injury through diagnosis. Understanding and utilizing state regulations on reimbursement issues pertaining to healthcare. CMCS Post Doctoral Division, New York Chiropractic Council, New York State Education Department, Board for Chiropractic, Long Island, New York, 2010

Documenting Clinically Correlated Bodily Injury to Causality, Understanding the necessity for accurate documentation, diagnosis and clinical correlation to the injury when reporting injuries in the medical-legal community. Documenting the kinesiopathology, myopathology, neuropathology, and pathophysiology in both a functional and structural paradigm. CMCS Post Doctoral Division, New York Chiropractic Council, New York State Education Department, Board for Chiropractic, Long Island, New York, 2010

Independent Medical Examination, Review the Independent Medical Examination and key concepts, ideal qualifications of the examiner, IME methodology and procedures, report format and quality assurance. University of Bridgeport College of Chiropractic, Bridgeport, Connecticut, 2010

Neurological Examination 101, Demonstrate skills to properly perform a patient interview, properly record a chief complaint, perform a neurological examination of the head and neck, perform a mental status examination. University of Bridgeport College of Chiropractic, Bridgeport, Connecticut, 2010

Neurological Examination 102, Review anatomy and function of the cranial nerves, examination of the twelve cranial nerves during a clinical examination, disorders of cranial nerves, trauma and pathology. University of Bridgeport College of Chiropractic, Bridgeport, Connecticut, 2010

Independent Medical Examination and Worker's Compensation, Develop an instructional basis for performing IMEs, expand current knowledge database pertaining to IMEs, identify risks and liabilities that may be encountered by examiners. University of Bridgeport College of Chiropractic, Bridgeport, Connecticut, 2010

MRI History and Physics, Magnetic fields, T1 and T2 relaxations, nuclear spins, phase encoding, spin echo, T1 and T2 contrast, magnetic properties of metals and the historical perspective of the creation of NMR and MRI. New York Chiropractic Council, New York State Department of Education, Board for Chiropractic, AACME Joint Sponsorship with the State University of New York at Buffalo, School of Medicine and Biomedical Sciences and CMCS Post Doctoral Division, Buffalo, New York, 2010

MRI Spinal Anatomy and Protocols, Normal anatomy of axial and sagittal views utilizing T1, T2, 3D gradient and STIR sequences of imaging. Standardized and desired protocols in views and sequencing of MRI examination to create an accurate diagnosis in MRI. New York Chiropractic Council, New York State Department of Education, Board for Chiropractic, AACME Joint Sponsorship with the State University of New York at Buffalo, School of Medicine and Biomedical Sciences and CMCS Post Doctoral Division, Buffalo, New York, 2010

MRI Disc Pathology and Spinal Stenosis, *MRI interpretation of bulged, herniated, protruded, extruded, sequestered and fragmented disc pathologies in etiology and neurological sequelae in relationship to the spinal cord and spinal nerve roots.* New York Chiropractic Council, New York State Department of Education, Board for Chiropractic, AACME Joint Sponsorship with the State University of New York at Buffalo, School of Medicine and Biomedical Sciences and CMCS Post Doctoral Division, Buffalo, New York, 2010

MRI Spinal Pathology, *MRI interpretation of bone, intradural, extradural, cord and neural sleeve lesions. Tuberculosis, drop lesions, metastasis, ependymoma, schwannoma and numerous other spinal related tumors and lesions.* New York Chiropractic Council, New York State Department of Education, Board for Chiropractic, AACME Joint Sponsorship with the State University of New York at Buffalo, School of Medicine and Biomedical Sciences and CMCS Post Doctoral Division, Buffalo, New York, 2010

MRI Methodology of Analysis, *MRI interpretation sequencing of the cervical, thoracic and lumbar spine inclusive of T1, T2, STIR and 3D gradient studies to ensure the accurate diagnosis of the region visualized.* New York Chiropractic Council, New York State Department of Education, Board for Chiropractic, AACME Joint Sponsorship with the State University of New York at Buffalo, School of Medicine and Biomedical Sciences and CMCS Post Doctoral Division, Buffalo, New York, 2010

MRI Clinical Application, *The clinical application of the results of space occupying lesions. Disc and tumor pathologies and the clinical indications of manual and adjustive therapies in the patient with spinal nerve root and spinal cord insult as sequelae.* New York Chiropractic Council, New York State Department of Education, Board for Chiropractic, AACME Joint Sponsorship with the State University of New York at Buffalo, School of Medicine and Biomedical Sciences and CMCS Post Doctoral Division, Buffalo, New York, 2010

Nutritional Neurology, *Course in neurology and the effects nutrition, diet, and lifestyle factors play in injury repair and various other pathologies, including fibromyalgia, detoxification, essential fatty acid deficiency, pediatrics, pregnancy, arthritis, cancer, heart disease, Alzheimer's and brain function.* Utah Chiropractic Physician's Association, Salt Lake City, Utah, 2009

Physical Therapy 102, *Review ideal pad placement for interferential therapy, increasing muscle strength in the elderly, screening procedures and treatment for the TMJ, evaluation and treatment of whiplash, rehabilitation of ankle injuries.* University of Bridgeport College of Chiropractic, Bridgeport, Connecticut, 2008

Orthopedics, *Understand the effects of knee proprioception after ACL reconstruction, discuss effects of manual therapy in whiplash, construct the orientation of the cervical facet joints, identify aspects of the lateral collateral ligament of the knee .* University of Bridgeport College of Chiropractic, Bridgeport, Connecticut, 2008

Whiplash Injury Biomechanics and Traumatology - Module 2, *Management principles in personal injury & forensic documentation including accident reconstruction, history taking,*

physical examination, radiographic, CT and MR examination, and electrodiagnostics. Designing a treatment plan, activities of daily living, chiropractic manipulative therapy, physical therapy modalities, treatment of TMD, and maximum medical improvement (MMI). Spine Research Institute of San Diego, Coronado, California, 2007

Whiplash Injury Biomechanics and Traumatology - Module 3, *Principles of impairment rating and forensic reporting including intake forms, SOAP notes, re-examinations and supplemental reports, the narrative report disability questionnaires, independent medical examinations.* Spine Research Institute of San Diego, Coronado, California, 2007

Whiplash Injury Biomechanics and Traumatology - Module 4, *Medicolegal fundamentals for practitioners and forensics experts, including reporting, records keeping, medical photography, depositions, arbitrations, testifying in court, using evidence, medicolegal rebuttal, Daubert and Frye, motions in limine.* Spine Research Institute of San Diego, Coronado, California, 2007

Whiplash Injury Biomechanics and Traumatology - Module 1, *Whiplash advanced topics including basic and special concepts of biomechanics, injury impairment scales, brain, neck, and cervical spine trauma mechanisms from motor vehicle crashes. Review of common muscle and joint syndromes, disorders, and criteria for referral and advanced imaging.* Spine Research Institute of San Diego, Coronado, California, 2006

Physical Therapy 101, *Review use of electrotherapy to control pain, parameters for wobble board rehabilitation of the ankle, SI manipulation and anterior knee pain, post-fracture manipulation, therapeutic exercises for patients with lumbar spinal stenosis.* University of Bridgeport College of Chiropractic, Bridgeport, Connecticut, 2006

Functional Capacity Evaluations In The Chiropractic Office, *History, purpose, and definitions; work assessment vs. FCE, required instrumentation, physical examination, contraindications, and informed consent; clinical assessment outcomes, evaluating work postures and work activities.* University of Bridgeport College of Chiropractic, Bridgeport, Connecticut, 2006

Whiplash Overview , *A review of the latest studies in whiplash related disorders including biochemical pathways of pain and research-based protocols of treatment.* Life Chiropractic College West, Hayward, California, 2002

SCHOLARLY PRESENTATIONS

Page, M. (2009, May). *Whiplash Traumatology.* Utah State Association of Driver's Education Teachers, Annual Meeting, Sandy, Utah.

SELECTED TEACHING/INSTRUCTING/LECTURING/CONSULTING

Guest Lecturer, Whiplash Traumatology, Cottonwood High School, Murray, Utah, 2009

Guest Lecturer, Whiplash Traumatology, Granger High School, West Valley City, Utah,

2009

Guest Lecturer, Whiplash Traumatology, Lone Peak High School, Highland, Utah, 2009

Guest Lecturer, Whiplash Traumatology, Brighton High School, Cottonwood Heights, Utah, 2008 - 2010

SELECTED MEMBERSHIPS

Academy of Chiropractic, Member, 2010 - Present

American Academy of Medical Legal Professionals, Member, 2010 - Present

Utah Chiropractic Physicians Association, Member, 2010 - Present

SELECTED HONORS AND AWARDS

Graduated Cum Laude, Palmer College of Chiropractic West, 2000

Phi Chi Omega Chiropractic Honor Society, 2000

SELECTED COMMUNITY SERVICE

4th Street Clinic 5K Fundraiser, Chiropractic/Medical Coordinator, Salt Lake City, Utah, 2010

4th Street Clinic 5K Fundraiser, Chiropractic/Medical Coordinator, Salt Lake City, Utah, 2011
